### DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/6/09 has been entered.
2. Claims 1-4 and 32-34 are pending in the application.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 and 32-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant claims molecular compounds which are prepared from the reaction of a phenol derivative, according to Formula (I), and an organic compound selected from the group consisting of, *inter alia*, antibacterial agents, antifungal agents, perfumes, resins, etc. Given the broad recitation of possible organic reactants, it is unclear to the Examiner as to what is the structural makeup of the final molecular compound. Also, the specification does not provide any guidance or clarification as to the chemical structure of the final molecular compounds claimed. Thus, it is difficult, if not impossible, to effectively search and prosecute the presently claimed invention.

***Response to Arguments***

Applicant's arguments, filed 8/6/09, have been considered but are moot in view of the new ground(s) of rejection.
